EDUCATION

Sir Syed University of Engineering and Technology

Oct 2023 – Oct 2027

Bachelor of Computer Science

- Majors: Data Analytics | Data Science | Database (SQL) | .NET Development

Aga Khan Higher Secondary School

Aug 2021 – Aug 2023

Pre-Engineering

PROFESSIONAL EXPERIENCE

Pakistan International Airlines – Dot Net Developer and Database Intern

Aug 2025 – Sep 2025

- Assisted in the development of a real-world web application “Fire Protection Portal” for the ERP Department.
- Gained hands-on experience in ASP.NET (HTML, CSS), Bootstrap, C#, and SQL, including UI design and backend database connectivity.

Sui Southern Gas Company Limited – Data Analyst/ Data Engineer Intern

July 27 – Aug

- **Data Analyst / Data Engineer Intern — MIS/Reporting Department, SSGCL:** Worked with SQL, Excel, IBM Cognos, and Python (Pandas, NumPy, Seaborn) on Oracle 19c-based billing data, performing data cleaning, visualization, and predictive modeling.
- **Rotation -Networking Department, SSGCL:** Gained exposure to the organization's network infrastructure and worked on Linux as part of a cross-departmental rotation.
- **Rotation — ERP Dept:** Hands-on experience with the Enterprise Asset Management (EAM) module.

Engro Fertilizers (EFERT) – Intern in the Instrument Section

Sep ---Oct

- Developed a web-based application for the Instrument section department to maintain and track industrial valves
- Digitalized valves records, including tag number, valve types, sizes, locations and maintenance related information
- Designed a user-friendly interface viewing, adding, managing valve records

PROJECTS (MAJORS)

PIA – Fire Portal

Aug 2025 – Sep 2025

- Developed a web-based management system to record, monitor, and manage fire safety training and equipment data within the organization.
- Built using ASP.NET (C#), HTML, CSS, Bootstrap, and SQL Server for both front-end and back-end development.

ETERNA CASE – Sales Evaluation Web App

(<https://eterna-case-94.streamlit.app/>)

- **Built and deployed a sales analytics web app** (Python, Streamlit, Pandas, Plotly) with an interactive dashboard and multi-page layout, hosted on Streamlit Cloud via GitHub..
- **Developed a Prophet demand forecasting module** with 7/30/90-day predictions, restock alerts, and accuracy evaluation (MAE, RMSE)
- **Designed a data-entry system for non-technical users**, converting raw WhatsApp-style text orders into structured tables via a regex parser, with CSV/Excel upload and automatic Revenue/Profit estimation.

Netflix Data Analysis

- Analyzed Netflix’s content dataset using Python and Pandas to uncover trends in genres, release patterns, and content distribution over time.
- Performed exploratory data analysis (EDA) to compare Movies vs TV Shows, top genres, and content availability by country

Eterna Case – Start-up

Nov 2024 – Present

- Founder of Eterna, a business creating premium mobile cases for almost all smartphone models.
- Managed product design, marketing, and online sales operations.
- Managed customer support.
- Designed and launched the brand’s e-commerce website on Shopify with a custom domain.
- Instagram: Eterna case

CERTIFICATIONS

PIA – Internship Completion Certificate

Aug 2024 – Sep 2024

SSUET – Best Semester Project (OOP)

Feb 2024 – Present

CISCO – Computer Networking

Oct 2025 – Feb 2026

SMEC’26 – Database Competition Participant

Oct 2025 – Feb 2026

SKILLS & INTERESTS

Technical Skills: Database (SQL) | AI in Excel | Python for Data Analysis | Power BI/Cognos | Dot Net Development | Python for AI/ML | Shopify | Numpy | Pandas | Scikit-Learn
